We sold 206 head this week with a fantastic turnout of excited buyers and a great set of consignments.

The market saw a strong offering of packer dairy cattle. Feeder steers remained steady compared to last week, while heifers were higher. Cattle with good vaccines and a long wean were at the top of the market and in high demand, with buyers especially valuing those with a solid vaccination program, including a good respiratory dose. There wasn't a good test on bred cows, and no pairs were offered.

We continue to see new and consistent consigners bringing quality cattle every week.

**Thank you to all our consigners & buyers!**  
**Reminder FREE feed on Monday & Tuesday for bringing your livestock early!**
