This week, we sold 149 head, with a fantastic turnout of excited buyers and a strong set of consignments. The market saw a solid offering of packer dairy cattle again, while feeder steers, though slightly light in quantity, saw increased prices compared to last week. We saw an increase of quantity and great quality heifers as they also experienced a notable price increase compared to last week. Cattle with good vaccines and a long wean were in high demand, with buyers particularly valuing those with a solid vaccination program, including a strong respiratory dose. We had a great showing of beef cows, which did well! We had a solid offering of bred cows, which we hadn't seen in a while. Consistently, we're seeing new consignors bringing quality cattle each week! The more information you provide on your cattle, the better we can market them to their highest potential!

Thank you to all our consigners & buyers!
Reminder FREE feed on Monday & Tuesday for bringing your livestock early!
